

— INTRODUCTION · OCTOBER 2026

Supply for what flies next.

Shop supplies, test stand hardware, raw material, tooling and build to print parts for Puget Sound launch, satellite and aircraft teams.

QUOTE

3 business days

FIRST REPLY

1 business day

READY NOW

8 supply lanes

PAPERWORK

CoC every shipment

Your buyers should spend their time on flight hardware, not chasing gloves, fittings and certs.

LAUNCH

Launch vehicles and engines

Test stand valves and fittings, cleanroom supplies, GSE structures, O2 clean hardware.

SPACECRAFT

Satellites and spacecraft

ESD control, cleanroom packaging, test cable assemblies, shipping containers.

AIRCRAFT

Aircraft and aerostructures

Cut resistant gloves, aircraft drills, calibrated torque tools, plate cut to size.

SHOPS AND SITES

Tier 2 shops and test sites

Carbide tooling, bar and plate, outside processing, ground power, lifting gear.

8 supply lanes. One PO, one paper trail.

01

Shop floor supply and VMI

PPE, cleanroom, FOD, consumables, ESD, packaging.

02

Test stand and fluid systems

Cryogenic valves, regulators, 316 SS fittings, transducers.

03

Build to print and outside processing

Machined parts, weldments, GSE, test cables; Nadcap finishing.

04

Raw material, cut to size

Aluminum, stainless, titanium, plastics, with mill certs.

05

Tooling, metrology and calibration

Cutting tools, torque tools, gauges, accredited calibration.

06

Electrical and connectors

Commercial connectors, wire, thermocouple, test leads.

07

Ground power and facility electrical

Transformers, switchgear, UPS, generators, storage.

08

Handling, lifting and shipping

Proof tested slings, lifting fixtures, crates, containers.

Four steps. No portal, no runaround.

01

Send a list

Paste it, upload a CSV or attach a drawing. Part numbers, specs or a photo of the label.

02

Priced in 3 business days

Line by line quote with lead time, source and the paperwork each line ships with.

03

Delivered with the paper trail

CoC, lot and country of origin on every shipment. Maker certs passed through unaltered.

04

One invoice

Net 30. Or put repeat items on VMI: we count, refill and bill once a month.

Start small: a 90 day VMI pilot on one work cell and your top 20 items. At day 90 you expand, adjust or stop.

We sell what we can certify today.
